### **MAJOR CITIES:**

Middle Vermont  
West Vermont  
North Vermont

Rutland-Killington Area  
Middlebury  
Waterbury-Stowe Area, Greensboro, Plattsburgh

### **VERMONT – CLIMATE**

The annual mean temperature for the state is 43 °F (6 °C).<sup>[23]</sup> Vermont has a **humid continental climate**, with **muddy** springs, in general a mild early summer, hot Augusts; it has **colorful autumns**: Vermont's hills reveal red, orange, and (on **sugar maples**) gold foliage as cold weather approaches.<sup>[24]</sup> Winters are colder at higher elevations.<sup>[25]</sup> It has a **Köppen climate classification** of Dfb, similar to **Minsk**, **Stockholm**, and **Fargo**.<sup>[26]</sup>

The rural northeastern section known as the "**Northeast Kingdom**" often averages 10 °F (5.6 °C) colder than the southern areas of the state during winter. The annual snowfall averages between 60 and 100 inches (1,500 and 2,500 mm) depending on elevation. Vermont is the seventh coldest state in the country.<sup>[27]</sup> In winter, until typical **El Niño** conditions, Vermont's winters are "too cold to snow"; the air is too cold to contain sufficient moisture to prompt **precipitation**.<sup>[28]</sup>
